PROJECTS

MetroHive Locate [↗](#)

Developed a hostel and PG finder web application to help students find suitable accommodations in Asansol.

- Enabled students to search, compare, and book hostels and PGs based on preferences.
- Provided hostel owners with a platform to list services, manage room availability, and accept online bookings.
- Implemented user authentication, a secure booking system, and user reviews & ratings.

Weather Application [↗](#)

Developed a dynamic weather application that fetches real-time weather data using the Open Weather API.

- Features include searching for any city, displaying current temperature, humidity, wind speed, and a 5-day weather forecast.
- Implemented an intuitive user interface with responsive design to ensure accessibility across devices.
